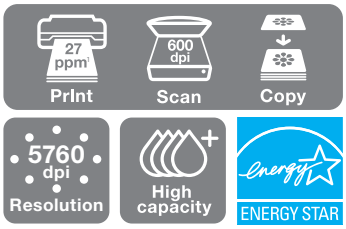
Epson **L200**

DATASHEET



Ideal for small offices, or if you're working from home, the L200 is Epson's first integrated ink tank system and helps reduce your business printing costs while increasing your output.

The printer is equipped with Epson's Micro Piezo printhead technology that delivers unrivalled durability, quality and reliability. The high-capacity ink tank is fully integrated into the printer, so you can enjoy reliable colour printing without the mess or hassle of other refill systems. Epson's Fast Ink Top-up (FIT) technology includes specially designed air-tight caps and filters that minimise ink wastage. The printer also features a choke valve that controls the flow of ink to prevent backflow and allows you to easily and safely transport the printer.

Using Epson genuine ink gives you the quality you demand from your printing and each ink bottle has a re-sealable cap for storage when not in use. With Epson's warranty, you can rest assured that you'll get maximum value, reliability and peace of mind from your printer.

With the ultra-high-capacity ink tank system and high-volume ink bottles, this printer, scanner and copier prints important business documents effortlessly.

A set of four individual 70ml Epson genuine ink bottles for filling the tanks is included– black, cyan, magenta, yellow – as well as two extra blacks, giving you value for money. Each set of high-capacity ink bottles can print up to 4,000 pages in black and 6,500 pages in colour, delivering an ultra-low cost per page[2] for both black and colour printing.
